# WHO WE ARE

Crystalex builds on the world-renown tradition of Czech glassmaking and takes it into the 21st century and beyond. Originally from Nový Bor, a town which has for centuries been the center of Northern Bohemian glass industry, Crystalex offers the best of Czech glassmaking craftsmanship. We are the biggest producer of drinkware in all Czechia and are among the foremost glass producers worldwide. Over 90% of our production is exported to over 80 countries around the world. Crystalex ships the unique spirit of Bohemian glass and crystal to the EU, Russia, Ukraine, and Eurasia, as well as to clients in the Americas, Africa, Australia or Eastern Asia. We offer smart, on-time service which is streamlined for the needs of a modern, fast-paced world while remaining ecologically conscious and whole-heartedly dedicated to sustainability.

# MADE IN

## BOHEMIA CRYSTAL

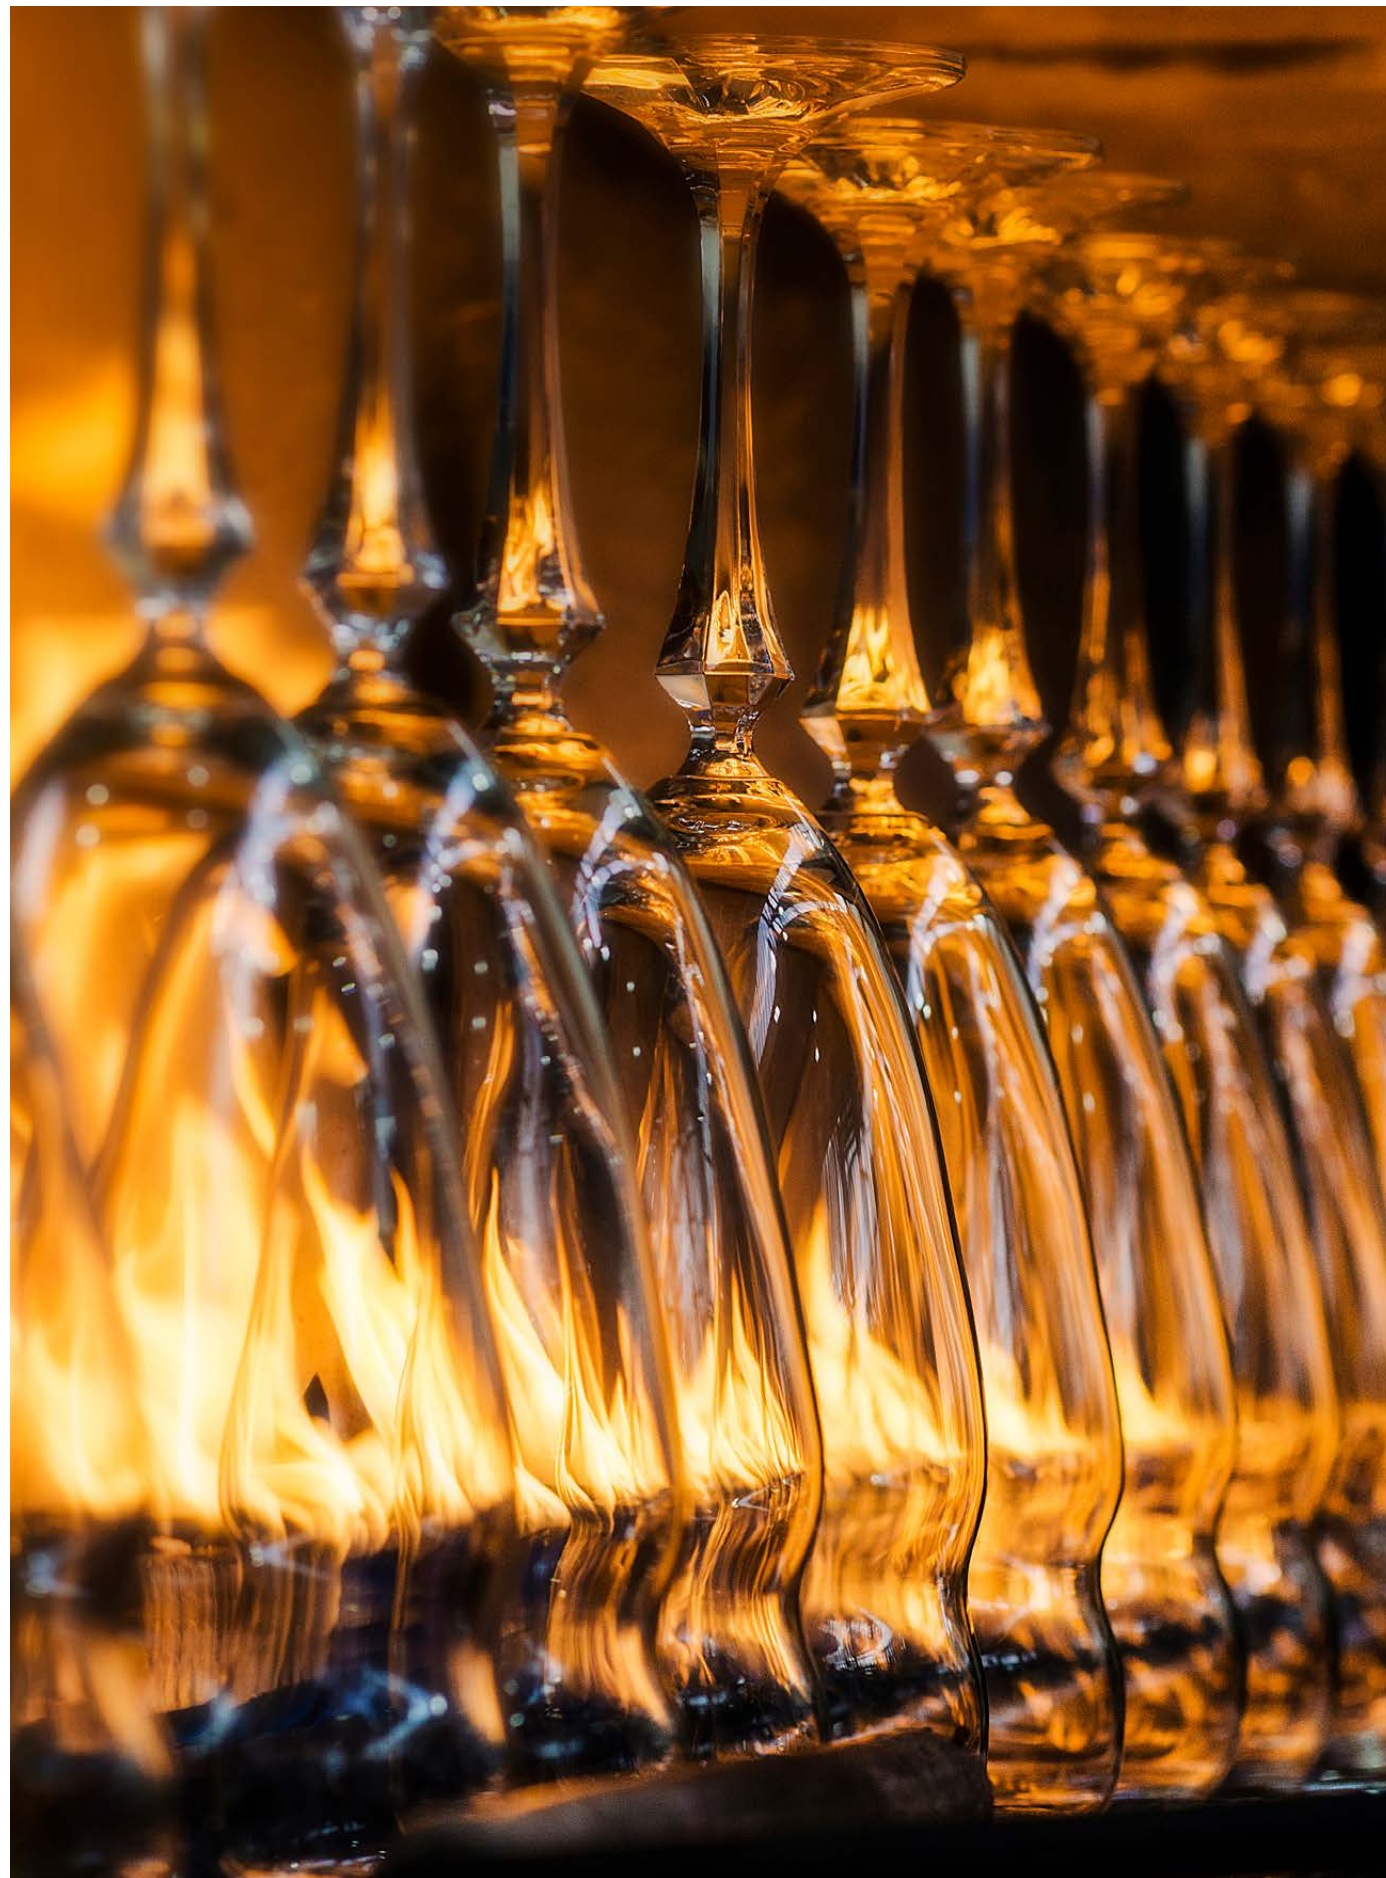

For over fifty years, Crystalex products have been carrying the Bohemia Crystal™ trademark which guarantees the highest quality in both material and production processes. Products designated with this prestigious trademark have become synonymous with the tried and tested quality of the Czech glassmaking craft. We are proud that we can continue to offer products which combine historical experience and tradition with modern technologies and the ingenuity of Czech specialists.

## BOHEMIA SPARKLE

All our products are manufactured from Sparkle™ glass, and we have decided to create a trademark which would encapsulate all its unique characteristics under a single banner. The premium Bohemia Sparkle™ trademark caters mostly to the segment of hotels, restaurants and catering (HoReCa). Apart from perfect optical qualities, products designated by this trademark fulfill the demands for professional glassware, including a thicker glass wall and a firmed rim. Crystalex has furthermore expanded the B2B logistical approach, which guarantees our customers effective service and safe delivery, every time.

BOHEMIA

# PRODUCTION

We take pride in our technologies and invest much energy and resources to streamlining and improving our automatic production lines. Crystalex understands that industrial production must move with the times and that we have great responsibility towards our employees, our community, and environment.

But our main gift to the environment and the planet as a whole is found in all-electric melting which does not produce nitrogen oxide (NOx) and other pollutants associated with gas and combined heating methods, while remaining maximally effective. We use only certified melting furnaces which we designed and developed right here at Crystalex, and which assure the most ecologically responsible mode of production.

Our designers use a spectrum of both traditional and wholly original decorative methods, like pantograph, machine cutting, painting, or screen printing, often combining them in fresh new ways. Crystalex has perhaps the widest range of decorative glass techniques in the entire world, and our products' fine aesthetic qualities allow us to ship over 50 million pieces of glassware per year to clients worldwide.

AND

# TECHNOLOGY

# CRYSTAL.ECO

**Our environmental and social responsibility**  
The Crystalex CZ, s.r.o. strategy is based on the economical and environmentally friendly use of resources and responsible behavior. Whether it is the energy consumption, cleanliness and safety of the materials we work with or the life quality of our employees and the region, our work always involves the least possible strain on the environment.

Electric melting without emissions

**Energy**  
Our glass is one of the most eco-friendly melted glasses ever. We use a fully electrical method for heating the melting unit and inlet channels. In addition, the melting units emit minimal noise, dust and heat, thus burdening the environment as little as possible.

Our all-electric melting system produces no pollutants. We use advanced software tools to extend the life of our production facilities and optimize production.

We use melting furnaces of our own design, which we continuously upgrade and optimize for the cleanest possible operation in line with our environmental policy and applicable directives. For example, in 2022 the company managed to reduce the absolute consumption of natural gas by more than 30% while maintaining the same production volume.

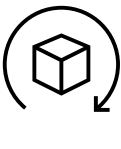

Local resources

**Resources**  
76.5% of raw materials come from our region or nearby. This ensures short transport routes, which also goes for the delivery of common spare parts, packaging materials and other services.

Recycling 90% of glass

Recycled packaging

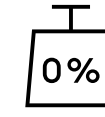

**Recycling**  
All our packaging is recyclable and its production comprises 94% recycled content. The packaging material is additionally always fully compliant with the FSC (Forest Stewardship Council) requirements. We return our internal cullet from the production process to the glass charge as much as possible, approximately 90%.

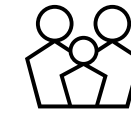

Responsible  
water  
management

Without  
heavy metals

Social  
responsibility

### Water

The electrical units, including auxiliary equipment, are cooled by water from an open circuit, where the water is subsequently cleaned, cooled and returned to the cycle.

The production area is supplied with drinking water from our own sources.

We continuously improve our material and energy management: for example, our operations utilize residual waste heat from the production units and warm water from the melting units and central compressor station, which we then use to preheat water for further use.

We are additionally designing circulation systems to cool the moulding tools and electrical distributors. In general, we want to increasingly return more pumped water for further use and, in the future, we plan to make use of the subsidy programmes of the Czech Ministry of the Environment to further improve our water management.

### Company

We address a wide range of topics in the sphere of corporate social policy. We are a member of SEDEX and regularly audit our company against SMETA standards; we undergo a number of supplier audits in social policy.

Crystalex CZ has established a code of ethics based on the principles of equal access to and respect for all employees, zero tolerance of any form of abuse, the right to privacy and the protection of the dignity and health of employees.

We support our employees' professional and personal development and uphold business ethics in accordance with the legislation and standards to which we are committed.

Aware of our existence in the context of the region and its people, we actively support regional cultural and social life, and help those in need.

Crystalex CZ maintains EU ISO 9001, ISO 14001 and ISO 45001 certification, which relate to quality, environmental and occupational safety standards. Our goal is to further obtain ISO 50001 certification in the near future.

The Home collection includes drinkware, vases, decanters and bowls which furnish any space with a smooth, simple beauty. Items from the Home series can be combined in a number of ways and will look picture perfect on any festive occasion.

HOME

## Drinkware

The production of these unique stemmed glasses is made possible by modern technology which greatly adds to their brilliance and resilience to impact. This ensures that the classic shapes and materials of the Home drinkware collection resonate together and provide the perfect backdrop to any gathering of family or friends.

COLLECTION

RAY

NEW 2025

The Ray collection celebrates the purity of light. It was inspired by a ray of sunlight lighting up a space and being projected through unique shapes of glassware. Drawing a cone of light similar to the one under an illuminated lamp, its soft lines and minimalist design create a sophisticated impression, turning every moment into an exceptional experience. Enjoy their illuminated elegance.

# 4 FOR 1

The 4 FOR 1 is a minimalist set perfect for any smaller household and ideal for individuals. The set reflects the contemporary social trend of forming social bubbles and living a lush single life. The collection offers a complete set of glasses for a non-alcoholic and sparkling beverage, a beer, and a wine. They are rendered in a classically elegant style, and further sets can be acquired along with each new member of the household.

# TURBULENCE

Drinking wine becomes a whole new experience with the unique Turbulence drinkware. These cups are made using a special technique which makes decanting wine quicker than ever before. Give the cup a light swirl, and the Turbulence glass will oxidize the wine in mere seconds, letting the full bouquet of tastes blossom on your palette.

Swirl  
to decant

WATERFALL

The waterfall is a force of nature, but we made it tame and fixed its power in glass in this unique, organic design. Waterfall can accommodate any space, as it has a classic feel, but don't let the looks fool you: all Nature's elements are locked inside it, just clamoring to shine.

## Tumblers

Our selection of tumblers will please anyone who enjoys drinking fine beverages from fine glass. Our series include Ideal, Barline, Club and Gina, but Crystalex never stops innovating, and so we can now offer our customers many brand-new series – like Tulipa, Xtra and Giselle – alongside classic Amoroso and Sandra sets. These can all be matched with their stemmed drinkware counterparts for a perfectly harmonized table setting.

## Stemless

Add a touch of elegance to classic stemless Sandra collection drinkware. Following the newest trends in serving wine, sparkling beverages and beer, this collection offers a streamlined, chic aesthetic. Glasses will not spill as easily even amid the hustle and bustle of a raucous get-together, and they can be easily washed in a dishwasher and stored in just about any cupboard.

# HERITAGE

The Heritage collection carries on the tradition of northern Bohemian glassmaking, presenting the best of Bohemian serial glass production of the past decades and beyond. These designs have been tried-and-tested through past years and their iconic decorated stems possess a timeless beauty which has since become popular all around the world. Crystalex is proud to carry on the good work started by our predecessors.

ROMANTIC

COLLECTION

# ANGELA

A still life composition featuring various crystal glasses filled with water and amber liquid, set against a dark blue background. The foreground is a warm orange surface with decorative objects including a snail, a beetle, a feather, and fruit. The word "ANGELA" is written in white capital letters in the top left corner.

Crystalex has been producing this romantic set of drinkware for over 20 years, and Angela has remained popular up until today. The set is offered in both smooth and decorated versions and is unique for its characteristically styled stem which feels almost organic to the touch.

CLAUDIA

Since its first production in 1974, Claudia has been a world-wide best-seller. The design picks up on the traditional shape of European goblets and casts them in fine Czech crystal. Many things have changed since the first Claudia glasses came off the production line some 45 years ago, but fortunately good glassware hasn't changed one bit.
