

VICENZA

CRYSTALEX

Vicenza by Jiří Pelcl
Designed by renowned
Czech architect and
designer Jiří Pelcl, Vicenza
is a timeless glass that
embodies minimalist
elegance and functional
clarity. Originally awarded
the National Design Award
(2006) and Design Plus
(Germany), it remains
a celebrated icon of
contemporary Czech design.

Crafted from lead-free
crystal glass using
automated production
at Crystalex, Vicenza
combines precision
manufacturing with
aesthetic purity. Its clean
silhouette and solid base
reflect the philosophy that
simplicity, when executed
perfectly, becomes
enduring sophistication.

**Vicenza is more than
a drinking glass
— it's a statement of
form, balance, and lasting
beauty**
