MAGNOLIA

CRYSTALEX

The set was inspired by the classical Diana design which Crystalex has been making to great acclaim since 1979, but Magnolie is furthermore made by means of the modern technique of polished the cup onto the glass stem. The subtle design and fine craftsmanship makes each beverage bloom like a magnolia blossom in spring breeze.

HERBS COLLECTION

CRYSTALEX

The Herbs collection has bloomed just for you. Designed with respect and love for nature, it captures its beauty in myriad forms. Herbs will enchant you with a timeless color palette and its subtle décor of small insects, healing herbs and wildflowers, letting you experience the lush richness of our planet.

Herbs glassware
Wildflowers and small insects have always been our fellow travelers. That is why we decided to commemorate their friendship in the Herbs collection. While one side depicts elegant healing herbs, the other depicts small, intrepid insects. When pouring in the beverage, their optical magic makes the small organisms grow in size. Each package contains a set of four variously decorated glasses.

Herbs Vases
Invite a piece of nature into your home with the spray-colored Herbs vases, showing a blooming spring meadow full of color and flitting butterflies. The harmonious design works with modern color schemes and trends, and shows just how lush and fascinating nature can be.

FISHERMAN'S DREAM

Koi

CRYSTALEX

Three Wishes

Koi / The freshwater ecosystem is home to many tasty carp. To please our fishermen aficionados, we made a set of two glasses for the Koi collection, adorned by colored screen print. While one side depicts soothing waves, the other invokes a good catch. We send the collection out gift-wrapped and with a personal message card.

Worms / No fishing trip can be successful without proper bait. We humorously depicted it by screen print on shot glasses of the Worms collection, which come with the promise of a good catch – just throw out a line and catch a real trophy.

Ed's Fish / Do you have everything – the fish line, the hook and bait – and are you ready to go fishing? The Ed's Fish glassware set will certainly help you get a trophy catch. And maybe not just one. The screen-printed design tells a story – from the moment you sit down on the bank until the moment you bring home a bountiful catch. We send the collection out gift-wrapped and with a personal message card.

The decor was designed by Eduard Hrabal, a 17-year-old student from the Middle School of Media Graphics and Polygraphy in Rumburk, who makes amazing caricatures in his spare time.

Three Wishes / Cast your fishing line and make your fisherman's dream come true. Who knows? Maybe you'll be lucky enough to catch a golden fish promising to fulfil your three wishes. And if you don't find it at the bottom of the pond, there's plenty of fish on the glasses of our Three Wishes collection, adorned with a golden rim and black screen-printed design. Which one will you choose? We send out the collection gift-wrapped and with a personal message card.

The Peony collection is like a little glass garden. The cup's rounded design is reminiscent of a sweet peony blossom, its poetic noblesse accented by the thin stalk on which it rests. Plus this patch of magical flowers is abundant and diverse - the edition features glasses for sparkling wine, still wine, beer, and also non-alcoholic beverages.

GENJI

Midges are exceptional organisms able to light up the night. We used the technique of glass cutting to render their image in very fine contours on the Genji gin & tonic collection. The drink itself contains a fluorescent alkaloid which lights up beautifully under UV light, just like the tiny midges after sunset.

HERONS

CRYSTALEX

In the art of Japanese and English cultures, herons are considered a symbol of eternal love and loyalty. This warm feeling has inspired us to create a contrasting motif of two united herons, printed on conic vases in clear and colored versions.
